Notre service

1. Nous pouvons répondre à votre demande dans les 24 heures ouvrables.

2. Le design personnalisé est disponible et les OEM sont les bienvenus.

3. Nous pouvons livrer les broches de sonde à nos clients partout dans le monde avec rapidité et précision.

4. Nous pouvons fournir le prix le plus bas avec un produit de haute qualité à notre client.

Principaux produits

Goupille à ressort (simple) pour test PCB, ICT, FCT etc;

Broche Pogo (connecteur) d'établir un lien entre deux cartes de circuits imprimés pour charge pogo

pin, repérer la broche pogo, Broche pogo de batterie, Sonde semi-conductrice & Applications d'interconnexion;

Sonde à double extrémité pour Tests BGA et semi-conducteurs;

Broche universelle sans ressort, goupille de revêtement, Broche LM avec les séries QZ et VZ;

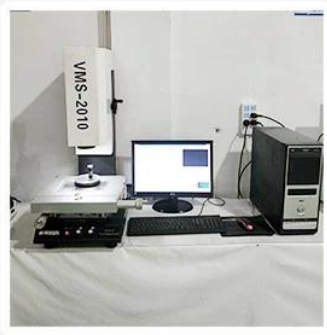
Sonde de courant élevé, Sonde de commutation, Aiguille capacitive;

Borne et prise / prise;

Autres composants électroniques connexes, fil 30 # OK, verrous de gabarit, POM, charnière en fer, etc.

Contrôle de qualité

1. Agilent current testing



2. Quadratic element

3.Load Curve Meter

4.Bond Test

5.Life Fatigue Test

6.Microscope

livraison information:

Standard products will be delivered out within 3 days. Customized products will be sent out within 15 days.
