

What is pogo pin?

Pogo pin (connector) is to establish connection between two printed circuit boards for charging, locating, Battery, Semiconductor & Interconnect applications;

About Us

SFENG was founded in 1984 and headquartered in Ningbo. It is a professional enterprise integrating research, development, production, and sales. ([pogo pin charger supplier china](#)) Products include in-circuit spring test probe, semiconductor spring test probe, battery charging pogo pin and the related accessories. Products are widely used in technology, automobiles, energy, telecommunications, medical, and other peripheral electronic products.
