

PCB spring loaded probe pin

Product Picture

Our Service

1. We can reply your inquiry within 24 working hours.
2. Customized design is available and OEM are welcomed.
3. We can deliver the probe pins to our clients all over the world with speed and precision.
4. We can provide the lowest price with high quality product to our client .

Main Products

Spring loaded pin (single) for PCB, ICT, FCT testing etc;

Pogo pin (connector) to establish connection between two printed circuit boards for charging, locating, Battery, Semiconductor & Interconnect applications;

Double ended probe for BGA and Semiconductor testing;

Universal pin without spring, coating pin, LM pin with QZ and VZ series;

High current probe, Switch probe, Capacitance needle;

Terminal & receptacle /socket;

Other related electronic components, 30# OK wire, Jig locks, POM, Iron hinge etc

Quality Control

Spring exhausted tester	DC power supply	Current resistance tester
 A tall, white industrial machine with a glass door and control panel, used for testing spring exhaustion.	 A white YoRi adjustable DC power supply with a digital display and various control knobs and switches.	 A white digital current resistance tester with a large green display showing '8.8.8.8' and a warning symbol.
Microscope	Tensile strength tester	Spring tester
 A white and black laboratory microscope with a camera attachment, used for inspecting small components.	 A blue and white tensile strength tester with a vertical column and a sample holder, used for measuring the strength of materials.	 A white spring tester with a digital display and a control panel, used for testing the properties of springs.
