Fcatory & società

Nostro servizio

1. Siamo in grado di rispondere alla tua richiesta entro 24 ore lavorative.
2. Il design personalizzato è disponibile e l'OEM è accolto favorevolmente.
3. Possiamo consegnare i pin della sonda ai nostri clienti in tutto il mondo con velocità e precisione.
4. Siamo in grado di fornire al nostro cliente il prezzo più basso con prodotti di alta qualità.

Prodotti Principali

Perno caricato a molla (singolo) per PCB, ICT, FCT test ecc .;

Perno Pogo (connettore) per stabilire la connessione tra due circuiti stampati per la ricarica,
applicazioni di localizzazione, batteria, semiconduttori e interconnessione;

Pin della sonda di prova BGA e test sui semiconduttori;

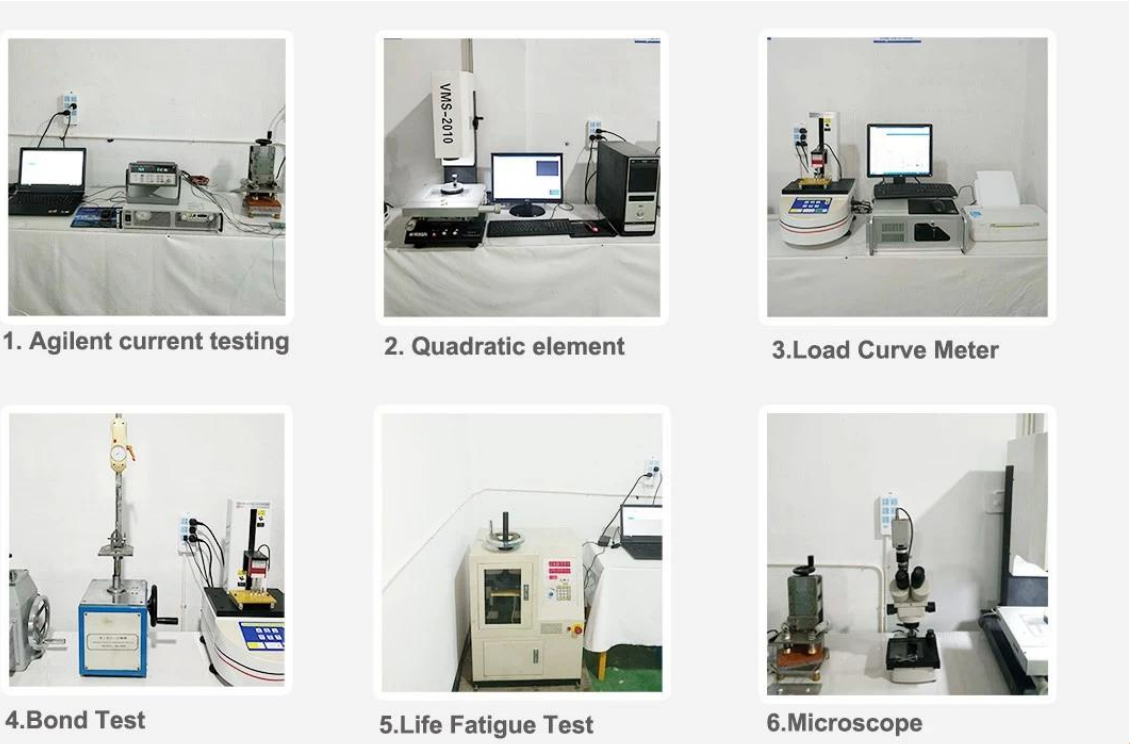
Perno universale senza molla, perno di rivestimento, perno LM con serie QZ e VZ;

Sonda ad alta corrente, Cambia sonda, Ago di capacità;

Terminale e presa / presa;

Altri componenti elettronici correlati, cavo 30 # OK, blocchi Jig, POM, cerniera in ferro ecc

Controllo delle apparecchiature



Pacchetto e spedizione

Standard products will be delivered out within 3 days. Customized products will be sent out within 15 days.
