## Factory & società

## Nostro servizio

1. Siamo in grado di rispondere alle vostre richieste entro 24 ore lavorative.
2. Il design personalizzato è disponibile e l'OEM è accolto favorevolmente.
3. Possiamo consegnare i pin della sonda ai nostri clienti in tutto il mondo con velocità e precisione.
4. Siamo in grado di fornire al nostro cliente il prezzo più basso con prodotti di alta qualità.

## Prodotti Principali

Perno caricato a molla (singolo) per PCB, ICT, FCT test ecc .;

Perno Pogo (connettore) per stabilire la connessione tra due circuiti stampati per la ricarica, applicazioni di localizzazione, batteria, semiconduttori e interconnessione;

Pin della sonda di prova BGA e test sui semiconduttori;

Perno universale senza molla, perno di rivestimento, perno LM con serie QZ e VZ;

Sonda ad alta corrente, Cambia sonda, Ago di capacità;

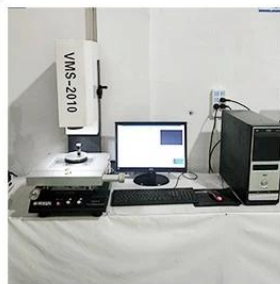

Terminale e presa / presa;

Altri componenti elettronici correlati, cavo 30 # OK, blocchi Jig, POM, cerniera in ferro ecc

## Controllo delle apparecchiature

1. Agilent current testing

2. Quadratic element

3. Load Curve Meter

4. Bond Test

5. Life Fatigue Test

6. Microscope
