

Production Specification

Switching probes are suitable for many various applications: not only can they be used for component detection tests, switches for closed/open checks, but also as a signal trigger for process control.

Furthermore, in combination with other test probes (e.g., push-back probes), position determination of contact terminals in plug housings is possible.

Production Flow

Production Flow (生产流程)

1. raw material warehouse

2. Lathe workshop

3. Assemble workshop

4. Quality inspection

5. Finished products

6. Packing

Test Equipment

Measuring Equipment >

Measuring Equipment:

1. Agilent current testing;
2. Quadratic element measurement
3. Load Curve Meter
4. Bond Test
5. Life Fatigue Test

Company Profile

Suzhou Shengyifurui Electronic Technology Co.,Ltd is the leading test probe manufacturer in China. In 1984 we set up the first factory in Cixi City, Zhejiang Province. With high quality and sweet service, our products are widely used in more than 50 countries in the world. We are dedicate to being the most reliable test probe supplier in China Market. We are committed to providethe most professional products and services to the customers in the world. Products include in-circuit spring test probe, semiconductor spring test probe, battery charging pogo pin and the related accessories.
