

About Us

SFENG was founded in 1984 and headquartered in Ningbo. It is a professional enterprise integrating research, development, production, and sales. ([High Current Probes For Lithium Battery Charging System](#)) Products include in-circuit spring test probe, semiconductor spring test probe, battery charging pogo pin and the related accessories. Products are widely used in technology, automobiles, energy, telecommunications, medical, and other peripheral electronic products.

Product Specification:

High-current probes are characterised by a specific probe design with low resistance. The main focus here is to avoid a too strong temperature increase of the probes or the individual probe components and to optimise the contact to the test item.
