

About us

SFENG was founded in 1978 and headquartered in Ningbo. It is a professional enterprise integrating research, development, production, and sales. **China spring loaded pogo pin** Products include incircuit spring test probe, semiconductor spring test probe, battery charging pogo pin and the related accessories. Products are widely used in technology, automobiles, energy, telecommunications, medical, and other peripheral electronic products.

Product Specification:

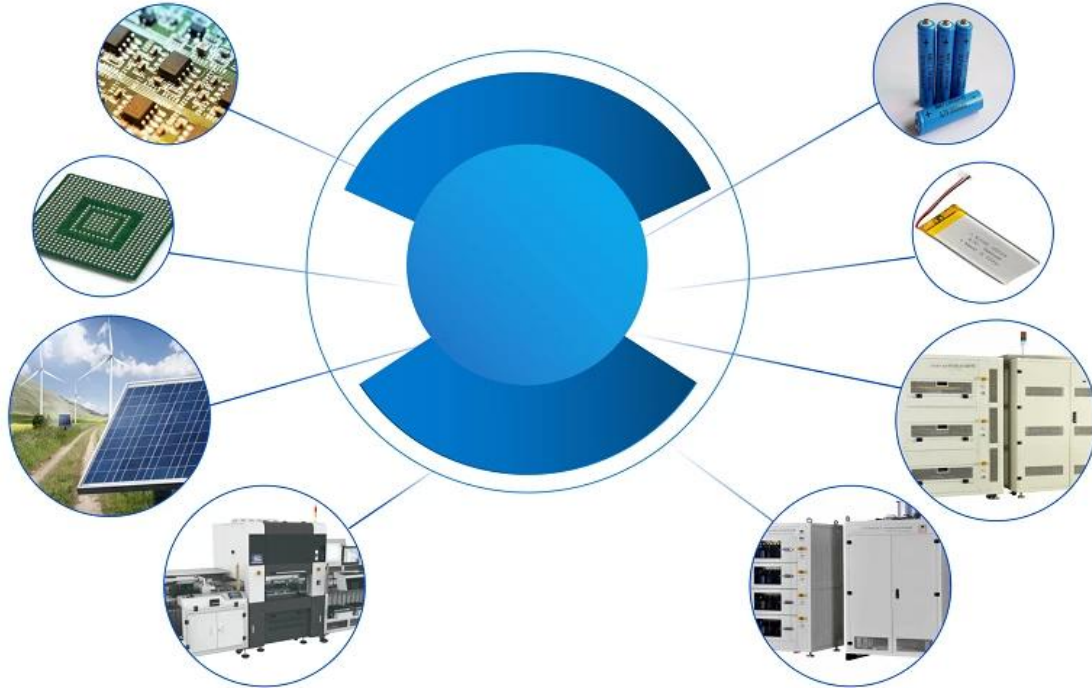

SFENG offers a variety of different size pogo pin. Pogo pin belongs to the very fine probe, it has a small size, light weight, beautiful appearance, high life, high current and high corrosion resistance, etc., suitable for product structure engineers to carry out a variety of complex structure design and use, so as to broaden the product designer's design ideas and reduce the product design cycle and reduce costs

Product Description:

Product Name	SMT pogo pin
Item No	SF-PG2.1—6.66—2.0—T3.51—1.3
Material	brass
Plating	gold-plated
Current	2A
Samples	Samples can be provided
Leadtime	7-10 days

Applications:

Application

Package:

Logistics:

Sample order ship by DHL, UPS, FedEx, TNT, EMS etc

For mass order delivery, can be optional with terms of Exwork, FOB, CNF, CIF by air or by sea based on the buyer's forwarder or ours
