

About Us

SFENG was founded in 1984 and headquartered in Ningbo. It is a professional enterprise integrating research, development, production, and sales. ([Current Pin For Battery on sale china](#)) Products include in-circuit spring test probe, semiconductor spring test probe, battery charging pogo pin and the related accessories. Products are widely used in technology, automobiles, energy, telecommunications, medical, and other peripheral electronic products.

Product Specification:

Product Description:

High-current probes are characterised by a specific probe design with low resistance. ([pogo pin probe manufacturers china](#)) The main focus here is to avoid a too strong temperature increase of the probes or the individual probe components and to optimise the contact to the test item.

Product Show

Application

High current test probes are used in many industries and applications with high current, such as testing, functional testing, signal transmission, power supply, production and built-in contact elements.

Package:

FAQ:
