Nosso serviço

1. Nós podemos responder seu inquérito dentro de 24 horas úteis.
2. Customizeddesign está disponível e OEM são bem-vindas.
3. Podemos entregar os pinos da sonda para nossos clientes em todo o mundo com velocidade e precisão.
4. Podemos fornecer o menor preço com produtos de alta qualidade para o nosso cliente.

Produtos Principais

[Pino com mola \(único\)](#) para testes de PCB, TIC e FCT etc;

[Pogo Pogo \(conector\)](#) para estabelecer conexão entre dois [placas de circuito](#)

[impresso](#) para [carregamento pogo pin](#), [localizando pogo pin](#), [Pogo pogo da bateria](#), [Sonda semicondutora](#) & Interconectar aplicativos;

[Sonda com ponta dupla](#) para [Teste BGA e Semicondutor](#);

[Pino universal](#) sem primavera [pino de revestimento](#), [Pino LM](#) com as séries QZ e VZ;

[Sonda de alta corrente](#), [Switch probe](#) Agulha de capacitância;

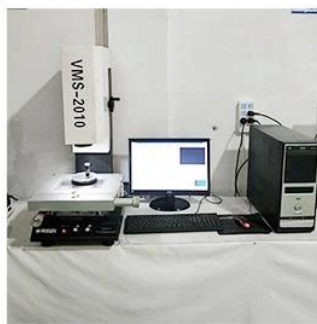

Terminal e receptáculo / soquete;

Outros componentes eletrônicos relacionados, fio 30 # OK, travas de gabarito, POM, dobradiça de ferro etc.

Controle de qualidade

1. Agilent current testing

2. Quadratic element

3. Load Curve Meter

4. Bond Test

5. Life Fatigue Test

6. Microscope

Remessa em formação:

Standard products will be delivered out within 3 days. Customized products will be sent out within 15 days.
