### SF-64-pin connector

## our service

1. We can get back to you Inquiry within 24 working hours.
2. Custom Designed to welcome the OEM.
3. We can provide The probe for our customers all over the world speed and accuracy.
4. We can provide The lowest price to provide high quality products to our customers.

## main products

For PCB, ICT, FCT testing a spring-loaded pin (single);

Spring pins (connector) to establish a connection between the two printed circuit boards for charging, positioning, batteries, semiconductors and amplifiers; interconnect applications;

Double probe BGA and semiconductor testing;

Universal pin no spring, paint needle, LM pin QZ and VZ series;

High current probe, the probe switches, capacitors needle;

Terminal amplifier; socket / socket;

Other related electronic components, 30 # OK line, clamp locks, POM, iron hinges, etc.

## Quality control
